Evercare Senior Care Options is available to people who are 65 and older. To enroll, you need to have or be eligible for enrollment in MassHealth Standard. You also need to live in the service area. You do not have to have Medicare. If you have Medicare, you must have Parts A and B. If you currently pay for a Part B premium, you must keep paying it. If you have MassHealth share of cost, then you must keep paying that amount, too. Evercare Senior Care Options is a coordinated care plan. It has a contract with the Commonwealth of Massachusetts and the Federal government. To access benefits, you must have services provided by your primary care team. Or, you must have services arranged by your primary care team. These services must be received from providers in the Evercare Senior Care Options network. Evercare Senior Care Options is offered by UnitedHealthcare Insurance Company (UHC).
